PROJECTS

Twilio (10/2022 - Present)

- Build programmable communication tools for making and receiving phone calls, sending and receiving text messages, and performing other communication functions using its web service APIs.
- Build Customer Engagement services using Serverless & React JS.

Fesia Clinic (08/2022 - 10/2022)

- Fesia Clinic is a website where the medical center can see their respective clients and their data.
- Implement designs from Figma with responsive design and implemented API's

AMP (05/2021 - 08/2022)

- The AMP Directory is the funding search engine that puts capital in reach for diverse entrepreneurs.
- My role was to create various components using React js and make API services. Also, take care of graphql schema from the backend side using.
- Working with Serverless to make lambda functions and using them on the frontend side.
- Implement static website using Next Js with SEO optimization.

ACHIEVEMENTS

Team Of The Quarter (12/2021)

Our project 'AMP' got the 'Team of The Quarter' award for outstanding performance during the 4th quarter, 2021.

Employee of The Quarter (07/2022)

I got the award "Employee of the Quarter" for outstanding performance in the Quarter 2. Some of the impact builder words told to me were ...Calmly dealing with situation & always ready to learn new things.
